# This is an intro page

Org mode is neat, and org-exports are neat, TOO.

- There are lots of keybinds to make things easy
- There are menus and tons of blogs all over
- Plus, did no one mention the LISP?!

# Because a second page always helps

## Idea block one

- don't you want more posts?
  - line one on images
  - or one on pictures
  - With  $S_{ubtext}^a$
  - Formulas  $a = b + c - d$

---

<sup>a</sup>Foot Notes

## Idea block two

```
from ideas import new_ideas
```

```
def fun(idea):  
    new_ideas.append(idea)
```

You too can import an image
